

## WaterMark Certification Scheme

### Risk Assessment Notification

2021/R71

### Product Assessed: Hydrogen hybrid battery storage system

#### Assessment

The WaterMark Administration advises it has reviewed a risk assessment submitted for the above mentioned product. The primary function of this system is to convert water into storable hydrogen energy via electrolysis.

The WaterMark Administration verifies that the risk assessment for this product has identified no risks requiring mitigation through the WaterMark Certification Scheme.

#### Outcome

The Risk Assessment identified the overall risk rating being low for the nominated health and safety consequences incidences. In accordance with the *Manual for the WaterMark Certification Scheme, Appendix 3, Table D*, any product with an overall risk rating of low will be listed on the WaterMark Schedule of Excluded Products and will not require WaterMark Certification.
